RE: Plan Management Arrangements (New Provider Letter)

To whom it may concern,

NDIS Participants have three choices in how their plan is managed: self managed, agency managed or plan managed. Under a plan management arrangement, all bills are paid directly by the registered plan management business. Participants have the same advantages of maximised choice and control that self-management provides but not the additional burden of paying the bills. A participant chooses NDIS registered providers or unregistered agencies. There is no need for you to access the portal or have NDIS details of this participant. Only registered agencies of NDIA can provide plan management services.

We are an independent registered plan management business and do not provide any other services. Our aim is to get the best service in the best possible way for the individual needs and skills of each NDIS participant whilst allowing maximum choice and control.

_____ has chosen to have their
services plan managed by *My Plan Manager*.

Our billing details are:

My Plan Manager (ABN 52 617 963 676)
25 Franklin St,
Adelaide SA 5000
